

# Advenger® & Advenger® AXP™

Rider Scrubbers

# Advance

## FACT SHEET

The Advance Advenger® is the first automatic rider-scrubber that gives you complete control of how you clean. The secret is the Evergreen™ control system - a green, ultra-low detergent mode that is ideal for normal cleaning and can be adjusted for more aggressive cleaning on dirtier floors. Simple, yet intuitive controls allow operators to clean green, but have the flexibility to quickly increase cleaning performance with an increased detergent ratio, solution flow, and brush pressure.

Commonly used detergents are diluted at a ratio of 128:1, (128 parts water to 1 part detergent), which is ideal for cleaning heavily soiled floors but can be excessive for routine cleaning applications. For routine cleaning on moderately soiled floors, Advenger with Evergreen dispenses detergent at 400:1 — just enough detergent to enhance the natural cleaning power of water and break surface tension while leaving a lighter detergent scent behind. It's not only green, it's smart. You'll save at least 50 percent in detergent costs by using a more highly diluted solution. Operators also have the option to clean with water-only for even more control over your environmental stewardship.

High-traffic areas require more aggressive cleaning, and the ability to make on-the-spot adjustments for heavily soiled floors is what really makes Advenger with Evergreen more than just a "green" machine. The touch of a button temporarily adjusts the machine to the typical manufacturer's detergent dilution ratio and increases brush pressure and solution flow for serious scrubbing power, eliminating the "double-scrubbing" required with other low-flow or water-only automatic scrubbers.

A host of additional features adds even more convenience and functionality to the Advenger rider-scrubber. An open design allows for easy access to the operator compartment while also providing for excellent operator sight lines to the floor. Quiet operation and a patented Safe 'N Dry™ squeegee make the Advenger scrubber ideal for daytime cleaning.

The Advenger rider-scrubber with Evergreen allows you to control the way you clean and how you clean green, while still giving you the flexibility for more aggressive cleaning when it's needed, all at the touch of a button.

### OPTIONAL ACCESSORIES INCLUDE

- Scrub & Vac™ kit
- Linatex or polyurethane squeegee blades
- Dual vacuum motors
- Battery watering kit
- Safety strobe light kit
- Dual arm rests, seat belt kit

### TYPICAL APPLICATIONS INCLUDE

- Healthcare Facilities
- Schools and Universities
- Government Buildings
- Supermarkets
- Shopping Malls
- Retail Stores
- Airports

# Advance Advenger® & Advenger® AXP™

## Rider Scrubbers

One button to temporarily override Evergreen™ for 60 seconds – detergent strength, solution flow, and brush pressure are increased one level

Easy access to AXP™ bottle for onboard detergent dispensing system

Patented Safe 'N Dry™' squeegee system creates air flow and removes collected water for 100% pick-up

Built-in squeegee hanging system on recovery tank for easy machine transfer and tank drying

Large recovery tank opening allows easy, unobstructed cleaning

Tools-free adjustable seat

Steering column is adjustable for comfort

Advenger® AXP™ models have easily accessible AXP™ cartridge storage

Open operator's compartment for easy boarding

Side steps for easy access to both sides of the machine

Rear squeegee uses a patented Safe 'N Dry™' squeegee blade system

Double bladed squeegee for best-in-class wiping

High traction non marking urethane tires

## Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Genuine OEM Parts.
