

SPRAY 'n DISSOLVE™

Porcelain & Tile Cleaner, Soap Scum & Rust Stain Remover

description:

A ready-to-use product especially formulated to eliminate tough soap scum build-up, mineral deposits and unsightly rust stains. **Spray 'n Dissolve™** is a concentrated clinging foam that quickly and easily removes even the hardest deposits. The special floral fragrance eliminates the undesirable odors associated with acidic products. Safe to use on porcelain, stainless steel, fiberglass, chrome and other hard surfaces. Not for use on formica, marble or counter tops.

features and benefits:

- Versatility A versatile cleaner around the restroom, shower room, or any area where mineral buildups from hard water occur. Cleans and brightens.
- Convenient No mixing or diluting required. Non-aerosol, ready to use.
- Floral Fragrance Leaves surfaces sparkling clean with a fresh floral fragrance.
- Deodorizes Removes deposits which can lead to objectionable odors.
- Mild Phosphoric Acid Formula When used as directed, safe for use on most surfaces. Do not use on formica, marble or counter tops as damage may result.
- Rinsability Rinses completely with hot or cold water.

9029PIB-0799

target markets:

Schools, nursing homes, hotels/motels, universities, factories, and businesses. Recommended for use on toilets, urinals, shower walls, tubs, ceramic tile, drinking fountains, sinks or surfaces not affected by water.

demonstration tips:

Spray directly on soiled surface. Allow to work for 2-3 minutes. Heavy build-up may require agitation. Rinse thoroughly with clean water and wipe off with damp cloth.
