

STAINLESS STEEL CLEANER

description:

A unique water-based formula designed to clean, polish and protect stainless steel, chrome, aluminum and any other washable hard surface. Removes smudges, spills, stains and fingerprints without leaving a greasy residue. Leaves a protective coating that resists resoiling and repels water. Helps prevent rusting, corrosion and discoloration. Buffs to a high gloss finish.

features and benefits:

- Convenient Ready-to-use with a push of a button. No mixing or diluting required.
- User Friendly Water-based formula. Contains no phosphates or abrasives.
- Versatility Cleans, polishes and protects in one step.
- Protective Film A tough durable film that resists smudges, fingerprints, spills, stains and water marks.
- Glossy Finish Polishes to a satin lustre finish.
- USDA rated C1 Authorized by USDA for use in federally inspected meat and poultry plants.

target markets:

Use in restaurants, cafeterias, delis, laboratories, schools, offices, manufacturing plants and hotels. Recommended for use on kitchen equipment, appliances, sinks, restaurant fixtures, vending machines, drinking fountains, elevator doors or on any washable hard surface. Wherever a bright, clean finish is a must.

9177-0696

demonstration tips:

Hold can in upright position 6 to 8 inches from surface. Spray lightly and wipe surface immediately with a clean soft cloth. Do not allow spray to dry. Buff to a high gloss finish. Run your hand over the surface to show how it resists smudges and fingerprints. Demonstrate the protective film's water resistance by splashing water onto the surface. Point out that it leaves no greasy residue that can attract dust and dirt. Polish to a high gloss that leaves stainless steel, chrome and aluminum shiny and looking great.

technical data:

	Min.	Max.
Flash Point (TOC)	Greater than 90°C typical	
Flame Extension	None	
Pressure @ 21°C	35 psig	45 psig
Spray Rate @ 21°C	0.9 g/s	1.3 g/s
Propellant Type	Hydrocarbon	
Appearance	Wet Spray	
Odor	Slight kerosene odor
